LONDON, Sept. 26, 7:30 p. m.—(By the Associated Press).—The town of Veles, twenty-five miles southeast of Uskub in Macedonia, has been captured by the Serbians.

SALONIKI, Sept. 26.—Bulgaria has been invaded by allied troops, according to a British official statement issued here today. British troops entered Bulgarian territory opposite Kosturino, about six miles south of Strumnitz, the enemy base.

LONDON, Sept. 26, 12:10 p. m.—Another advance of fifteen miles was made by the Serbians in the Balkan drive, it is learned from an authoritative source here this afternoon.

The important Bulgarian center of Ishtib has been captured by allied troops, according to despatches from the Saloniki front. This new lunge was made in the direction Ishtib, one of the chief objectives of the allies. The Serbs are now driving in the direction of the Bulgarian frontier.

(It had previously been reported that allied cavalry had invaded Bulgaria and was advancing in the direction of Strumnitz).

Thirty more guns have been captured from the Bulgars, the most of them being "heavies." Five hundred additional prisoners have been taken also.

HUN AIRDROME IS SMASHED BY ALLIED FLYERS

LONDON, Sept. 26.—Allied aviators attacked an enemy airfield at Buhl, near Karlsruhe, yesterday, with good results, it was officially announced today. Bursts were observed near the hangars.

The air force squadron attacked Kaiserlautern. Bursts were observed near the station and munitions factories.

While returning the allied aviators were attacked by a number of enemy machines. In a long running fight with enemy planes were destroyed. Three allied machines are missing.

"We are suffering now because we under-estimated our enemies," said Schendemann. "I regard the Brest-Litovsk treaty as an obstacle to peace. This king-making business in the east must terminate."

AMSTERDAM, Sept. 26.—Philip Schendemann, leader of the Socialist leader, addressing the main committee of the Reichstag, declared that "General von Ludendorff, and not Chancellor von Hertling, rules in Germany. He said that Germany is suffering now because she under-estimated her enemies."

"We are suffering now because we under-estimated our enemies," said Schendemann. "I regard the Brest-Litovsk treaty as an obstacle to peace. This king-making business in the east must terminate."

ZURICH, Sept. 26.—A state of siege has been proclaimed in Sofia, according to information from reliable sources received here today. The inhabitants must remain indoors after 9 p. m.

The newspapers are appealing to the people and the army to remain calm and not lose confidence "at a moment when the country is in supreme danger."

The cabinet is sitting continuously.

General Ferdinand is consulting with his general staff headquarters. It is reported that a ministerial crisis is imminent. Some circles predict a return of Prince Boris.

Popular peace demonstrations occurred at the capital Sunday, Monday and Tuesday.

WASHINGTON, Sept. 26.—Plans for a vote by the Senate today on the federal woman suffrage amendment virtually were abandoned in the midst of debate. Chairman Jones of the woman suffrage committee, Majorite Ladd, Martin and other leaders of both factions joined in private statements that the Senate's action would go over until Saturday.

While the Senate debate was under way, with crowded galleries awaiting the final test, Chairman Jones made the following statement to a representative of the Associated Press:

"It now appears likely that no vote will be taken today and that the resolution will go over until next Saturday, when Senator Lafollette of Wisconsin is due to arrive."

Northwest of Monastir the allied forces are moving forward beyond Krushevo, along the important roads to Krushevo, Ulkovo and Veles, threatening Uskub.

The Serbians have taken Popadić and Hillan, as well as important ground west of the lower Cerna river, and have penetrated north of the Vardar river to the Kriva river and the heights commanding Lake Veles.

Franco-Anglo-Greek troops are in the Karbani hills north of Lake Dolan.

Fresh dispositions made by General Franchet D'Esperey, who has passed through Prilep, justified the belief that there will be an energetic exploitation of the great interallied victory in Macedonia, says Marcel Hulin, editor of the Echo de Paris. King Ferdinand of Bulgaria has

Viscount Ichiro Motono resigned his post as foreign minister in the Terauchi cabinet several months ago on account of ill health. He was succeeded by Baron Goto, then home secretary. Motono's resignation at the time was said to have been because of a difference of opinion about intervention in Siberia.

Viscount Motono was a junior delegate to The Hague peace conference in 1899 and after the Russo-Japanese war was ambassador at Petrograd from 1906 until 1915, when he became foreign minister. He was born at Saga-ken in 1882.

Hitherto Quiet Champagne Sector Suddenly Involved in Mighty Allied Thrust

LONDON, Sept. 26, 6:14 p. m.—The French and Americans have advanced several miles in their new offensive on the Meuse river, it was learned this afternoon. This new blow was brilliantly executed and progress was made along the entire front of attack.

(A previous despatch said the French and Americans had assaulted the Germans over a front of thirty miles).

The French and Americans drove against the German positions all the way from the river Sambre (in Champagne) to the zone just west of the Meuse river (Verdun front).

The Germans made no determined resistance in their forward positions but fell back, evidently to what they regarded as stronger positions.

(By Associated Press)
PARIS, Sept. 26.—French and American troops began a joint attack this morning on the Champagne front and in the region beyond it on the east, today's war office statement announces.

Renewed German attacks north of the Aisne have been repulsed at one point where the Germans gained a foothold upon the French positions they were ejected by a counter-attack. The text of the statement reads:

"Between the Ailette and the Aisne the Germans repulsed their attacks last evening in the region of Allemant and Moulin-Lafaux."

"The enemy succeeded at this latter point in penetrating the French lines, but an energetic counter-attack by the French re-established the situation."

"Further south the French have enlarged their position east of the Aisne and have taken prisoners."

"This morning at 5 o'clock French troops attacked on the Champagne front in cooperation with the American army operating further to the east."

BY THE FRENCH ARMY IN
FRANCE, Sept. 26, 9:10 a. m. (By the Associated Press).—French troops today attacked in the Champagne in a thick fog after a period of artillery preparation, which terminated an hour of most intense gunfire.

PARIS, Sept. 26.—St. Quentin has been seized by the enemy and the officers and the German command have moved their headquarters out of the city, which has been stripped of its art works and treasures, according to despatches from the front.

The forces of General von Marwitz are now fighting along the main line of the Hindenburg defense system, where the Germans are struggling to keep the British and French from breaking through.

The early indications were that the attack was progressing most favorably.

The attack by the French army, which was launched at 5:30 o'clock this morning, was along a wide front.

Military critics have pointed out that the Champagne was the logical place where the effort intended to destroy the effects of the Hindenburg line was to be concentrated.

WITH THE AMERICAN ARMY
ON THE LORRAINE FRONT, Sept. 26.—The American drive on the Metz front was renewed on Wednesday and further progress was made. Both American and French took part in the attack.

The Franco-American pressure centered just east of the Moselle river.

A good advance was made in the Chamdey-Bouxières sector despite German resistance.

The Germans were very active, Wednesday being the first fine day in some time.

The American line of the Moselle extends in practically a straight line from Vandoeuvre to Nomoyen. It averages from a mile and a half to three miles to the German border.

BERLIN, Sept. 26.—The capture of French and Americans in Lorraine, to the east of Moselle, is reported in today's army headquarter's statement.

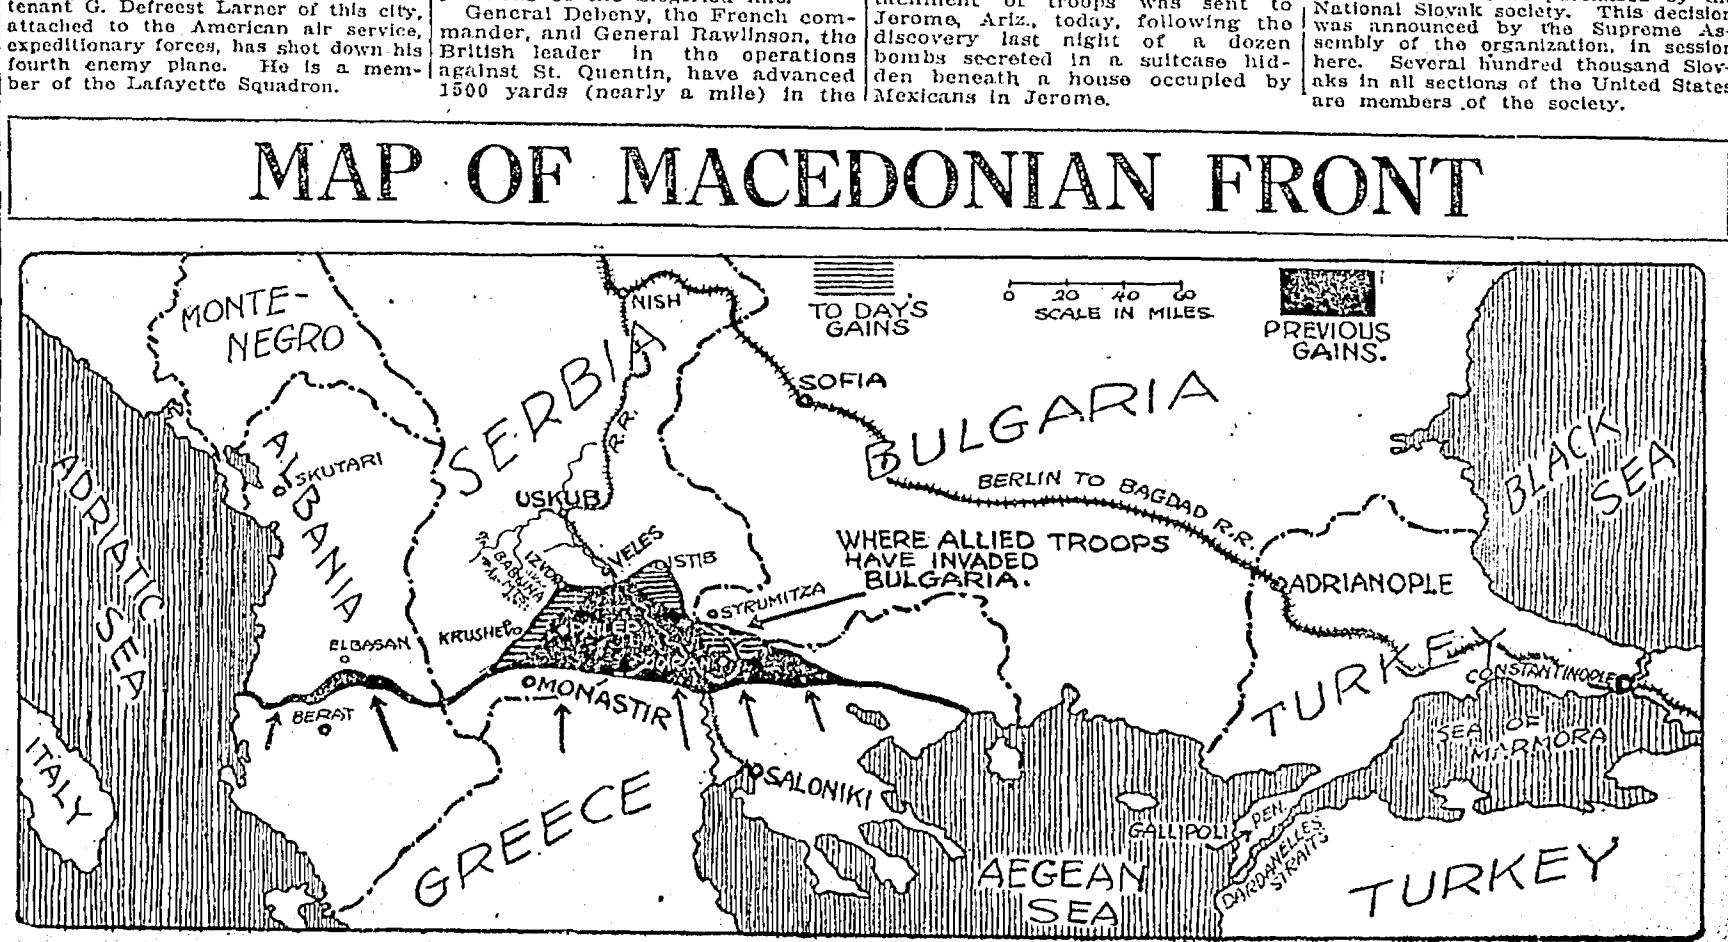

Mutiny Breaks Out
in German Regiment

WITH THE BRITISH ARMY IN
FRANCE, Sept. 26.—That a mutiny has broken out in the German army as a unit of drafted men from Munich, is revealed by a document just captured by the British.

The mutineers opened fire against their officers, wounding one major. Three German officers and 104 privates surrendered voluntarily to the British west of St. Quentin.

GOVERNMENT AT HOME**

Monastic or Prilep will become the seat of the Serbian government as soon as the allied lines north of these cities have been definitely established, according to Dr. M. R. Vesnitch, the Serbian minister to Prilep.

In discussing the allied victory in Macedonia today, Dr. Vesnitch declared that it was almost unbelievable that a success of such magnitude could be won with such a slight loss to the allies.

Advices received in Serbian diplomatic circles here show that the Bulgarian troops in the region of Lake Ochrida, toward the western end of the Macedonian front, are virtually encircled by the Italians advancing in the direction of Kichevo and the Franco-Serbian forces moving from Monastir toward Krushevo. Krushevo, the fall of Krushevo is expected hourly.

The only means of exit for the Bulgarians here is a narrow passage between Kichevo and Krushevo.

The army seems doomed to destruction or surrender, or to a retreat into Albania, as the allied heavy forces now installed northwest of Monastir would easily pass in the other direction.

(This is the First Bulgarian army referred to in the London despatch above.)

ATHENS, Greece, Sept. 26.—Greek troops are raiding in the allied advance in Macedonia on three sectors of the front, according to an official statement from the Greek war office today. East of the Vardar the Bulgarians are in flight toward Valachia, with the British and Greeks in pursuit.

ITALY, Sept. 26.—Greek troops are raiding in the allied advance in Macedonia on three sectors of the front, according to an official statement from the Greek war office today. East of the Vardar the Bulgarians are in flight toward Valachia, with the British and Greeks in pursuit.

ITALY, Sept. 26.—Italian hydro-aerons have engaged a new type of Austrian destroyer in the Gulf of Drina. Italian destroyers joined with the aeron in the engagement with Austrian destroyers and also exchanged shots with the land forts. The Austrian destroyers were driven to cover and several of them were observed to be damaged.

No losses were sustained by the Italian ship and all of the aeron were picked up.

ITALY, Sept. 26.—Italian hydro-aerons which originally were Bulgarian, have in the last reservation become largely Serbian. Spots in Bulgaria have become largely Greek and sections in Greece have become largely Bulgarian.

According to reports here of Bulgarian's probable contentions she would ask that in disputed regions there should be a plebiscite. No matter what the outcome complete freedom of religion, language and commercial regulations should be granted by the governing nation.

On the basis of nationality, Bul-

garia communities—Nish, for ex-

ample, which originally were Bul-

garian, have in the last reservation

become largely Serbian. Spots in

Bulgaria have become largely Greek

and sections in Greece have become

largely Bulgarian.

The proposed city and county government plan was discussed by E. W. Williams, secretary of the Tax Association, who held that it was necessary to do the present tax rate to a marked decree, saving the property owners of the bay cities enormous sums by avoiding duplication of offices and corrupting wastes.

S. E. Biddle presided and the association voted endorsement of the Tax Association plan. The Single Tax Association also voted a unanimous disapproving it as a menace to business and to the State.

What causes skin blemishes

Every girl ought to have a clear, attractive skin... The way to remove blemishes and to remove their cause

EVERYONE is immediately attracted by a clear skin—soft, free from blemishes and unsightly spots. Every girl longs for it.

If your skin is not as clear and colorful as you would love to have it—if it is disfigured by blackheads, or by conspicuous pores on nose and chin—find out just what it is that keeps you from having this charm which everyone feels the moment they see a clear, lovely skin.

Then start at once to remove not only the blemishes, but their cause.

Take your hand-mirror to the clear daylight and examine your skin closely. Decide just what is the matter with it, then begin at once to see what the right method of cleansing will do for it, and the proper treatment with a soap specially prepared to meet the needs of the skin.

If you find that blackheads are your chief difficulty, don't be discouraged. You can rid your skin of this disfiguring condition.

Try this famous treatment for blackheads

Blackheads are a confession that you are using the wrong method of cleansing for the type of skin that is subject to this trouble. Start tonight to see how much this treatment will do for you.

Apply hot cloths to the face until the skin is reddened. Then with a rough washcloth work up a heavy lather of Woodbury's Facial Soap and rub it into the pores thoroughly, always with an upward and outward motion. Rinse with clear hot water, then with cold—the colder the better. If possible rub your face for thirty seconds with a piece of ice. Dry the skin carefully.

This treatment will cleanse your skin thoroughly and keep it free from blackheads. Use it persist-

ently. Do not expect to get the desired results by using it for a time and then neglecting it. But make it a daily habit and it will give you the clear, attractive skin that the steady use of Woodbury's always brings.

To remove blackheads already formed, substitute a flesh brush for the wash-cloth in the treatment above. Then protect the fingers with a hand-kerchief and press out the blackheads. Thereafter, use Woodbury's Facial Soap in your daily toilet.

How to get the other treatments

If your particular trouble is some other one—conspicuous nose pores, oily skin, or tender skin—see the booklet wrapped around every cake of Woodbury's Facial Soap. In it you will find the famous treatments for all the common troubles of the skin.

Get your cake of Woodbury's today and begin tonight the treatment your skin needs. A 25c cake is sufficient for a month or six weeks of any Woodbury Facial treatment and for general cleansing use for that time. Woodbury's is on sale at drug stores and toilet goods counters throughout the United States and Canada.

Send for sample cake of soap with booklet of famous treatments and sample of Woodbury's Facial Powder

Send 6c for a trial size cake (enough for a week or ten days of any Woodbury Facial treatment) together with the booklet of treatments, "A Skin You Love to Touch". Or for 12c we will send you the treatment booklet and samples of Woodbury's Facial Soap and Facial Powder.

Address The Andrew Jergens Co., 116 Spring Grove Avenue, Cincinnati, Ohio.

If you live in Canada, address The Andrew Jergens Co., Limited, 116 Sherbrooke Street, Perth, Ontario.

For oily skin and shiny nose

A special treatment for an oily skin and shiny nose is among the famous treatments given in the Woodbury booklet you get with the soap. Secure a cake today and the booklet that goes with it.

SOCIETY

MISS ALICE CRELIN, whose marriage to Ensign Wymond Bradley Garthwaite, U. S. N., will take place tonight.

Once again will the fashions of war time be demonstrated by members of the elite of the Eastbay cities who are to participate in the Ladies' Revue for the benefit of the Ladies' Relief Society; the date, Monday, October 7. The T. & D. Theater is to be the setting for this splendid revue of the fall styles, the mannequins to be as in seasons past, the maids and matrons of the Eastbay set.

Mrs. Walton Norwood Moore has been appointed chairman of the details of the evening and will arrange for the program intervening.

Some of those who helped to make a success of previous benefits of this nature were Mrs. Willard Williamson, Mrs. Lulu Rued Webster, Mrs. Wickham Havens, Mrs. Ned Howard, Mrs. William Thornton White, Mrs. Joseph Rossborough, Mrs. Frank Hunt Proctor, Mrs. Harold Havens, Mrs. Jack Martin, Mrs. Marion Randolph McCausland, Mrs. Robert Newell, Mrs. Percy Murdoch and scores of others.

Invitations were sent out yesterday for the military ball to be sponsored next Saturday evening at the Municipal Auditorium by the Oakland Defenders' Recreation Club and the War Camp Community Service. The honor guest for that evening is to be the men of the Aviation School at the University of California. Saturday is to be known as War Camp Community Service and Defenders' Recreation Day at the Pacific Coast Land and Industrial Exposition, and the attractions to the special guests of the evening, the ball is open to all men in the United States Uniform. It is to be full dress and only uniformed men will dance. Included in the invitation are the men who are stationed at the Technical High school who are under contract to a special camp in the East Bay. It is also expected that some eight hundred soldiers from the various stations about the bay will be present, their invitation having been extended through the San Francisco War Camp Community Service.

Honor guests of the club are to form the reception committee and the entertainment committee, who with the fifteen hundred assistant hostesses who are members of the club, will receive the guests of honor.

Tuesday evening, October 1, an informal dance and supper is to be given at the Defenders' Club and upon this occasion is designed that all members be present. Tuesday, October 22, an evening of cards and supper is planned and those who make reservations with the chairman, Mrs. Henry Willard Taylor, must do so before October 19.

Mrs. Thomas Mitchell Potter left today to spend the week end at their summer place near Lakeport, on Clear lake. Mr. Potter will soon leave for the east but upon this trip Mrs. Potter will not accompany her husband, but continue her duties as hostess of the Oakland Defenders' Club.

Last night was Belgian Relief night at the Industrial Exposition at the Auditorium, and members of the Association assembled there to preside over the Belgian booths. A sale of the Belgian shopping bags was conducted by the committee, while the interesting feature of the evening was an address by Madame Horsta of Belgium. Mrs. Ethel Bates Lee presided as chairman and her assistants were Miss Crissie Taft, Miss Dorothy Taft, Miss Effie Kroll,

CHAPTER LXV.

The market spirit smolders in women as in men. The air had reached it and quickened it in Daphne. The blood of emotions quickened was in her veins. She did not know what "avatism" meant, but she was full of it.

Daphne was going to be independent, but she was still all woman when it came to the selection of her special trade. She would be a business woman, but she would do a woman's business. There were ever so many dainties and luxuries that she was going to hang in her shop. She was going to have a window. With her name on it! That would be more fun than a *hina* with crest on door.

Gradually her scheme enlarged. She would devote her shop to the whole mechanism of the boudoir. "Boudoir wear" was a word that pleased her.

When she told Mrs. Chivvis the news, Mrs. Chivvis, who was a real estate woman, said, "She had feared that she would have to sell unspeakables. She had felt hardly better than one of those unfortunate women whom poverty condemns to scrubbing slops of offices and worse—to carrying slops and washing out their clothes."

Now she was to be emancipated to a dealer in laces and silks. She could write to her people and tell them what she was doing without depreciation or evasion. Daphne was rhapsodically happy. She chanted, "We'll sell boudoirs and pelmets and couvre-pieds and mules and stockings and breakfast jackets and bedrolls and handkerchiefs, bags and sachet things and dressing-table accessories and perfumes and—oh, yes, I have some exquisite embroidered hem ropes. They're coming into style. Let's sell hem ropes and everything and everything."

"I'll tell you—let's sell trousseaux—all in a neat little basket—bridal bride needs. I was nearly one myself and I know what the wratches suffer."

"And let's not charge 'em too much. The pitiful creatures have trouble enough without bankrupting everybody in advance."

"I remember how the price tags put my remembrance on the blouse. If it hadn't been for them I'd have been a nice old married lady by now."

She fell pensive over the memories revoked by the word "trousseau." She had come to New York to buy her own, and all her life had been changed thereafter. People are rarely remitted in New York to do the same for themselves.

Daphne had done nearly everything except buy her trousseau. Now she was going to sell trousseaux for other people and never have any of her own.

Her regrets, however, were soon forgotten in the multiplicity of her affairs. A shop must be found, rent paid in advance, fixtures installed, advertisements planned. Stock must be bought to sell.

It was in human nature that the partners should quarrel over a name for the baby before the baby was born. They spoke of themselves as "The Firm."

The problem was what to put on the window and the stationery. Mrs. Chivvis was for plain

Delay Ordinance
On Banner Displays

Pending further report from the city attorney as to liabilities attached to any department of the city government for advertising, the city council has postponed action on a new ordinance which would give the Mayor power to grant permits for hanging of advertising banners.

Commissioner Jackson pointed out that while one department might grant the permits another department, particularly that of the streets, might be held liable for accidents and damages.

but Daphne felt that such dainty wares as they were going to vend needed a better bush.

There were hours of debate over a design which was to be used, while they waited. They were laying in what stock they could in advance. Mrs. Chivvis, having been forced to give up the chaste dignity of "Kip and Chivvis," ran amuck and proposed "Daphne and Esther," and "Daphne and Ethel," etc. "She thought she might give her name a French twist as "Cheveaux." Daphne retorted that "Chemise" was nearer, Mrs. Chivvis snuffed.

Daphne proposed "The Chiffonier," but found that it had been pre-empted. Mrs. Chivvis suggested "The Boudoir," a name given to a room for "boudoir drives." Daphne was reminded of Mr. Ken Hubbard's line in a newspaper: "Miss Fawn Lippincott was confined to the house for three days last week by a swollen bureau drawer."

As people do when they hunt for titles, they reverted to chaos and finally to "The Wardrobe," "The Boudoir," "The Clothes Closet," "The Cedar Chest," "The Trouseau Shop," "Boudoir," "The Lingerie Mart," "Dainty Dudes for Desperate Dames," "La Vie Intime," "La Vie Intime," "Frills and Furbelows."

Finally Daphne, choosing the majority of the girls, selected an idea for "Boudoirwear," and claimed a victory. Mrs. Chivvis surrendered with the amendment that "Miss Kip" should be at one side, "Mrs. Chivvis" at the other. She bribed the assembly by promising that cousin of hers, a young artist living in the Washington Navy Yard, would paint a pretty signboard on a swinging single. After many designs had been composed and destroyed they agreed on this legend:

MISS MARY DUNBAR, the fiancee of Hans Lemcke, is a guest at the home of her fiance's mother, Mrs. Martin Lemcke, in the home of Mrs. Edward Valentine entertained in a reception to Miss Dunbar at a knitting tea earlier in the week. Miss Pauline Turner, betrothed to Raymond Sayre, also shared the honors.

Mr. and Mrs. Willard Williamson of Piedmont have gone to Los Angeles for a fortnight's trip. They do not expect to move to the other side of the bay until the middle of next month.

Frank Edoff entertained Saturday night at a smart dinner at his home in Vernon street, the guest of honor, Miss Hélène Bon, fiancee of Captain Homer Clark Pendleton, U. S. N. M. A. Allard, who assisted his mother in receiving Miss Bon, Mr. and Mrs. Frederick Sherman, Mrs. A. Chauche, Mr. and Mrs. Willard Thornton White, Mr. and Mrs. Joseph J. New Classes Formed
At Tech Night High

The addition of a class in acetone welding and cutting will be organized at the Technical Evening High School next week. These two additional courses will be organized this evening. Six classes on this subject are at present in operation, and the call for additional men is so great that new classes must be formed.

This class in radio will also be organized next Monday. Both of these classes will be designated as war emergency classes, and are partly financed by the government.

Students desiring to enter should register at the Technical High School, Ferry Street and Broadway. No charge other than a deposit to cover material used is made.

THE NINETEENTH COMMANDMENT

by Rupert Hughes.

(Continued from yesterday.)

CHAPTER LXVI.

The market spirit smolders in women as in men. The air had reached it and quickened it in Daphne. The blood of emotions quickened was in her veins. She did not know what "avatism" meant, but she was full of it.

Daphne was going to be independent, but she was still all woman when it came to the selection of her special trade. She would be a business woman, but she would do a woman's business.

There were ever so many dainties and luxuries that she was going to hang in her shop. She was going to have a window. With her name on it! That would be more fun than a *hina* with crest on door.

Gradually her scheme enlarged. She would devote her shop to the whole mechanism of the boudoir. "Boudoir wear" was a word that pleased her.

When she told Mrs. Chivvis the news, Mrs. Chivvis, who was a real estate woman, said, "She had feared that she would have to sell unspeakables.

She had felt hardly better than one of those unfortunate women whom poverty condemns to scrubbing slops of offices and worse—to carrying slops and washing out their clothes."

Daphne and Esther gradually increased the maximum price originally resolved upon. It seemed necessary to take a desperate plunge or give up all chance of success.

The thousand-dollar capital had gone down rapidly under Daphne's living expenses and the expense of advertising. When she told Mrs. Chivvis the news, Mrs. Chivvis said, "She had feared that she would have to sell unspeakables.

PRINCE GIVES UP THRONE TO MARRY CHOICE

Dr. George Reinle and Evelyn Kane Marry in South

AMSTERDAM, Sept. 26.—In answer to a plea that he desert his pride of humble birth, Crown Prince Charles of Rumania has replied that he preferred the certainty of having the wife he wanted to the chance of losing the succession.

The escapee of the Crown Prince in going to Odessa and marrying Cecile Lambring, the daughter of a major in the Rumanian army, re-opens the question of the Rumanian dynastic succession. When King Ferdinand held off the marriage, he declared that the Crown Prince be given a seventy-five days' military confinement for absenting himself without leave.

King Ferdinand also sent an emissary to the young couple to try to undo the nuptial knot, but to no avail.

Crown Prince Charles has not yet voluntarily renounced his rights of succession, and the Rumanian public is to be very angry. The Rumanian constitution does not contain a clause barring a morganatically married crown prince from succession.

Planning for Auto to Leap 3 Houses

An automobile shooting skyward to a height of 25 feet and hurtling over three houses set in a row—this is the thrill promised Idora Park visitors Sunday afternoon. The spectacle is to be staged free in the stadium.

A few weeks ago an automobile was sent over a bungee. Now comes Jack Dubois and says he'll guide a car on its mad flight over three houses. Dubois plans to jump at the take-off as the car shoots skyward.

To clear the houses the machine must be traveling at least 50 miles an hour and must jump 50 feet at a height of 25 feet. The machine is working out the details of the construction of the incline down which the machine will plunge to the take-off. They are also figuring out the weight of the car and the exact speed it must attain to accomplish the feat.

MRS. GEORGE S. REINLE

Surprising their many friends in Oakland, news was received here today of the marriage in San Diego of Miss Evelyn Kane and Dr. George G. Reinle, one of the most prominent physicians of the city. The wedding took place on Saturday evening in the home of Captain and Mrs. G. C. Curds with a number of the immediate friends of the couple in attendance. Captain Curds, a well-known Oakland physician, recently received a commission in the army medical corps and has been stationed at Camp Kearny.

The bride has for several years been employed as stenographer in a department of the district attorney's office. She has a sister in the San Rafael convent. Dr. Reinle is a graduate of the College of Physicians and Surgeons.

Honest Advertising

THIS is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be.

That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Imitations are to be found in some stores and only because of the Castoria that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher honestly advertised. Honestly placed before the public, and from which he honestly expects to receive his reward.

Genuine Castoria always bears the signature of *Dr. H. Fletcher*.

RED CROSS WILL WORK FOR BONDS

The whole organization of the Pacific Division, American Red Cross, will be placed back of the Fourth Liberty Loan campaign in accordance with the notification which has reached all chapters from A. B. C. Johnson. It has been suggested that chapters headquarters and workrooms be turned over for meetings, the display of posters and the distribution of campaign material.

School children have begun collecting clothes for the Belgians, with each school house a center for the neighborhood. More than two tons of Oakland's twenty-two quota have already been collected. An quickly the term arrive at the headquarters, 3065 Broadway, the Red Cross will be turned over to the Belgians and made ready for shipment by a busy corps of volunteer workers. The garments which have been sent in are of a high class and particularly suited for sending overseas. When impossible to take them to the hut, Fourteenth street and San Pablo Red Cross headquarters, Fifteenth street and Broadway, or the campaign headquarters, Kuyer, 10th Street, will bring a motor car.

Moreover, automobiles are needed, car owners are asked to volunteer their services in the collection of clothes for Belgians. Immediate assistance is an urgent necessity.

Everyone that one can possibly do without such ones, warm and protection against the weather. Particularly strong, practical shoes will be gratefully received. Alameda is filling all the extra spaces with spools of thread, which in Europe are selling for \$1 each. School children have been making the thread drive for the general committee.

One Wounded, One Jailed in Stabbing

As the result of a quarrel said to have originated over a woman, Orlena Gonzula of 421 Jackson street is in the Emergency Hospital suffering from severe knife wound and Neki Pardo of 695 Washington street is in the city prison accused of the assault. Pardo was arrested by Patrolman T. Merrick at 5:45 a.m. on Saturday, and was away from the scene of the quarrel, after pursuit engaged in by a number of pedestrians. Gonzula was taken to the hospital.

and of John Hopkins University. After studying abroad he started in to practice his profession in Oakland eighteen years ago. He has been on the medical staff of the receiving hospital under Chief Surgeon O. Hamlin for nearly twenty years. Dr. Reinle was former president of the Alameda County Medical Association and has held important offices with the State medical societies.

Following a honeymoon the couple will continue to make their home in Oakland. Dr. Reinle has volunteered his services to the army medical corps and anticipates an early call to the colors.

THE SATISFACTION OF A GOOD SPONGE

Many People Do Not Realize the Full Usefulness of Sponges

The subject of sponges is a very interesting one. Up to a few years ago, nearly all sponges came from foreign waters, but now, under the direction of the United States Fisheries Department, sponges are being cultivated, and deep sea divers are now on the coast of the United States, especially around Florida.

The luxury of a sponge is often overlooked in many households, and yet a bath without a sponge lacks an element quite necessary.

We have toilet sponges for 25¢ up.

Bath sponges from 25¢ up.

Face sponges from 25¢ up and automobile sponges from 50¢ up to \$2.

If you want a real good, luxurious sponge, one that will give satisfaction whenever you use it, pick it out at Bowman's.

NEW HAND BAGS

"I always buy my handbags at Bowman's," said a friend of the writer the other day. "I always seem to be able to get a better bag for \$3 or \$4 at Bowman's than anywhere else." This is because we specialize in handbags at moderate prices. There are several stores in San Francisco that carry a larger stock of expensive handbags (ranging from \$15 to \$25) than you will find at Bowman's, but we doubt if there is a store in the state that carries a better assortment at prices ranging around \$4 to \$5.

Just now we are featuring a real silk velvet bag. These bags are very hard to secure in the whole sales market, and we could not be able to show them off had we not placed our orders early this year. People in the east are using velvet bags and we would advise our customers to select them early because it is doubtful whether we will be able to get further quantities until after the fall.

We also have many new varieties in knitting bags which are also appropriate for shopping or carriage use. These big, fine, commodious bags are one of the many practical and exceedingly useful ideas that have already come to our minds.

TRAFFIC MEN ORGANIZE TO UNIFY LAWS

Attorneys Ready
With Free Aid to
Local Registrants

The Legal Advisory Board is sitting in Room 212 City Hall from 9 o'clock in the morning to 9 o'clock in the evening. This board is giving advice to registrants.

By EDMUND CRINNION.
With the adoption of a constitution and by-laws and the election of officers the National Traffic Officers Association was launched yesterday at a convention of delegates from outside cities and States gathered here for the purpose of attending the convention of the California Traffic Officers' Association and to get a national body started along similar lines.

Spirited rivalry portrayed the election of officers, particularly for the offices of president and vice-president. The convention is session in San Francisco, working out the details of an aggressive campaign for the uniformity of traffic laws affecting motor vehicle travel throughout the United States.

UNIVERSAL LAWS NEEDED.

The national organization, which has finally become a reality will fill a long-felt need with the officials and motorists alike throughout the United States. The following committee of framing laws to fit the needs of each commonwealth has brought about serious conflict. With the advance of the motor car and motor truck as an interstate transportation vehicle it is pointed out that it now becomes a necessity for motor car traffic to be governed by universal laws enforced throughout uniformly all over the United States.

This progressive plan outlined by

DAY COURSES IN FIRST AID OPEN

New day classes in first aid to the injured, elementary hygiene and home care of the sick are being opened this week in Oakland high school and Oakland technical high school under the direction of the American Red Cross and in co-operation with the Oakland School Department. Beginning today and meeting on Tuesdays and Thursdays thereafter, at 8:15 and 5:45 p.m., first aid will be taught in a new group in the Technical high school. Fridays will inaugurate classes in first aid, elementary hygiene and home care of the sick in Oakland high school. First aid classes will convene on Mondays, Wednesdays, Fridays at 3 p.m., to be followed at 4:30 p.m. by instruction in hygiene.

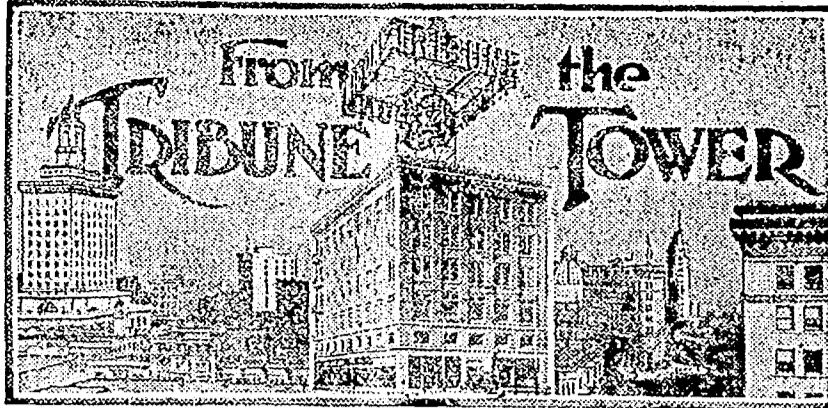

Mr. Fred Hobart Head is sponsoring a first aid class under the Red Cross which will be started at once in Pleasanton. Dr. Eugene S. May is the founder of the suburban study group. The instruction will be given by Dr. Holmes F. Troutman.

The drive for twenty tons of new clothing for the Red Cross which is in progress this week under the direction of the local chapter of Red Cross is progressing favorably.

The receiving depot is located at 3068 Broadway, telephone Lakeside 1569. Large boxes have been placed at the Hotel Fourteenth and San Pablo Avenue, at the Red Cross headquarters, 1569 Broadway and at the receiving depot for the convenience of those wishing to deposit clothes during the Belgian campaign.

TALKATIVE ATTORNEY
CALLED FROM SWIM

Former Superior Judge W. H. Donahue, who is now practicing what he used to preach, had a case before him last year involving the title of an old-fashioned farm that had everything on it from pennies royal to the family tooth brush, and urging rapid consideration of demands.

The man, a carpenter, was 48 a day for mechanics and 45 a day for helpers.

The demands were presented August 15, and were expected to have been answered by the Macey board by September 15. On or before that date the Macey board informed local union officials that the matter could not be adjudicated before October 1.

BOILERMAKERS OF COAST IN COUNCIL

At the meeting of the Pacific Coast District Council of Boilermakers and Iron Shipbuilders today the matter of profit sharing and adequate housing of the members of the nine locals represented was discussed and measures taken to insure a betterment of the conditions in this city and elsewhere within the jurisdiction of the District Council.

Other matters discussed were sick benefits and death benefits. It is proposed to change somewhat the present regulations, but no definite steps to that end were taken today. Nine locals, employing 6,000 men, are represented in the membership of the council.

No reply has as yet been received to the telegrams forwarded by the council to the Macey Board at Washington, intimating that delays in settling the existing wage controversies might produce labor complications, and urging rapid consideration of demands.

Dr. Geo. T. Pomeroy
Now Army Captain

Dr. George T. Pomeroy, a well-known Oakland physician, has received his commission as captain in the U. S. Army Medical Corps and has left for Camp Kearny. Captain Pomeroy was made the recipient of the congratulations of his friends at a farewell before his departure. He has been informed that he will be sent to France within a few weeks.

Service Men to Be
Honor Dance Guests

The nineteenth anniversary of the Royal Neighbors of America will be celebrated by the Pacific Camp, the organization in Alameda county, tomorrow at the Hotel Oaklawn, the Pacific building. The initiation of candidates and a reception is arranged for the afternoon.

Service men will be honored at the evening's dance and entertainment. Mrs. Lulu Case, city supervising deputy, will be a speaker of the day.

Charles E. Rhein Is Given Commission

Charles Elroy Rhein of Oakland has received the commission of second lieutenants in the coast artillery. He enlisted Wednesday from the coast artillery officers' training camp at Fort Monroe, Virginia. He has been assigned as instructor at Fort Monroe.

Rhein was graduated from the University of California in 1917. He

was elected to the yearbook and hours later was listed as "distress and turned back." The fire tugs hurried to her assistance, but the flames were confined to the hold and the steamer was able to return under her own power. The Admiral Dewey was built at Puget Sound in 1893 and is 280 feet long. She was launched on the 15th of June and has a gross tonnage of 2104 tons.

With a companion on an electric crane swinging a huge steel plate into place. The crane refused to work. Shulgin got out on to the steel plate to discover the cause of the trouble. Reaching up his hand he came in contact with an overhead wire, and the entire 1,000 volts passed through his body. He fell to the ground and was dead when help reached him.

ADMIRAL JAYNE TO COMMAND IN WEST

Rear-Admiral Joseph Lee Jayne, who has been in command of a division of the Atlantic fleet, is on his way to the North Naval district. On October 1 Pacific Coast, to take command of the fleet which will succeed Captain Robert Russell, who has been in command of this district since May, 1917. Word of the appointment has just been received from Washington.

Captain Russell has been transferred to the Island of Guam as commandant. The Board of Supervisors of San Francisco has passed resolutions commending the work of Captain Russell and have asked that he be retained in San Francisco.

Admiral Jayne was graduated from the Naval Academy in 1882 and was commander of the torpedo boat Rodgers on his duty on the Cuban coast during the Spanish-American war. He has served as secretary of the Naval Board of the Navy, and was superintendent of the Naval Observatory from 1911 to 1914. He has also served as a member of the Inter-departmental Wireless Telegraph Board.

THURSDAY, SEPTEMBER, 26, 1918.

SATURDAY IS HONOR DAY.

Saturday has been designated as Honor Day. It is the date, September 28, on which the Fourth Liberty Loan Drive opens. Patriotic citizens of Oakland and other Alameda county cities will on that day march unsolicited to the banks and voluntarily subscribe, to the full limit of their resources, for liberty bonds.

Honor Day buyers will be those 100 per cent Americans who do not need to be urged, exhorted, shamed or forced to invest their money in Uncle Sam's securities. There will be no solicitors out on Saturday. It is expected that each citizen's patriotism and conscience will impel sufficiently.

Our boys now have Fritz on the run. It is our duty to back them to the limit. Large subscriptions will hasten the end.

Remember that Saturday is the day and the banks the place.

TAXING THE PRESIDENT.

The House of Representatives, by a very decisive vote in the committee of the whole, declined to exempt the salaries of the President of the United States, the judges of the supreme and inferior courts and State officials from the operations of the income tax. It is estimated that the total amount that would thus be saved to the treasury will be some five millions. If the President is taxed, according to the provisions of the bill as it now stands, 42 per cent on his salary of \$75,000, it will amount to some \$31,000.

There is doubt as to whether Congress has the power to do this. The doubt is raised through this provision of the constitution: "The President shall at stated times receive for his services a compensation which shall neither be increased or diminished during the term for which he shall be elected." Whether the action of Congress is constitutional or not, it would place the President in an awkward position. He would not want to test any such matter by judicial proceedings just at this time.

ASSOCIATION OF ASSASSINS.

In the trial before Judge Landis in Chicago of the 112 J. W. Ws. who were charged with violation of the espionage act, evidence was introduced showing that the Bolsheviks in Russia and the J. W. W. in the United States conducted joint seditious plots for uprising in this country through correspondence.

One of the passages in the correspondence between agitators here and in Russia in praise of sabotage and the Bolshevik doctrine, read:

"What is more civilized than for the workers to create powder which refuses to explode? To spike guns which are to be trained on our working-class brothers in other countries? Sabotage will civilize the soldiers."

The Chicago correspondent of the *Christian Science Monitor* says:

"After outlining how sabotage could prevent the movement of troops, munitions and strike-breakers by the mere burning of drawbridges, one article asked:

"Are you ready to take your stand and prove to the world you are made of stuff good red rebels are made of? All aboard for the greatest year in the history of labor."

Now there is a new move that may disconcert some men who thought they were secure in an industry that was exempt. Wherever women can be substituted for men in these industries it is to be done, so that the men can get out to stern duties. This move brings along to a more acute realization what a real helpmeet woman is, who at times some have been in the habit of looking on as helpless. There is a considerable argument right here to the effect that she never before had a chance.

It is a sort obligation to visit the Land Show. Not an onerous one, by any means, but one which all Oaklanders should recognize, if for no other reason than to get posted so that they will be able

to talk about their city and county and the adjacent communities, and indeed, the whole State of California, to the best advantage. In performing this duty they will experience a personal enjoyment also. It is a great show. It is entirely worth seeing on its abstract account. Everybody who goes admits this. Besides the instruction and the pleasure which may be urged, it will tend to inculcate that habit of encouraging efforts that are put forth for the general benefit of the community, and it is a very good thing to be interested in what is going on.

DON'T KNOCK.

He was a practical philosopher who said that there were two things about which he never worried—those things that he could help and those things that he couldn't help. "Much that would be something has become nothing by being left alone, and what was nothing has become of consequence by being made much of."

Many remedies cause more diseases than they cure. Don't complain either of people or of events. However men may, from courtesy or affected compassion, listen to your recital of your physical ailments, your domestic sorrows or your business troubles, nobody really cares much whether the pain in your big toe deprives you of sleep, or your relatives were unduly meddlesome, or whether you lost or won when you took a flier in the stock market.

"The first thing," said Anaxagoras, "is to seem virtuous, and the next is to be virtuous." Things do not pass for what they are, but for what they seem. To be of use and to know how to show yourself of use is to be twice as useful. What is not seen is as if it were not. Even the right does not receive proper consideration if it does not seem right. A good exterior is the best recommendation of the inner perfection."

The President answered the Austrian note in sixty-eight words. There is no camouflage or ambiguity in it. No room for argument. It may be hard on the Hun to make it so definite that it can't be twisted, but that is the way he is sure to be treated through to the end. As to the peace feeler which was put out by Pope Benedict the President had already said: "Can peace be based upon a restitution of its [Germany's] power, or upon any word of honor it could pledge in a treaty of settlement and accommodation?" That was a first-class hunch as to how the American people feel about this war and the persons who are responsible for it. And they are still feeling that way, only that which has transpired since has considerably intensified the feeling.

A despatch announces that Dr. Helferich has resigned the Russian mission "to resume economic preparation for the peace mission." We can understand resigning from the Russian mission—that cannot be an alluring job, just at this time, even for a Hun—but the "economic preparation for a peace mission" is not quite clear. The general understanding hereaway is that there is not going to be any peace discussion that will require any extended Hun preparation. The only peace that will count will be one which Germany will have no alternative but to accept. That will not require extensive study.

Herr von Payer, who seems to be something official in Germany, or at least to have an avenue to publicity at his disposal, has earned from the *Washington Post* the title of "Sauerkraut Logician." He foresees our embarrassment by getting so many soldiers in France that we will be stumped to find ships to carry food to them. Which is at least different from the other logicians, who argued that we could never get the army there. One was sure we could not get the boys over, and the other thinks we will come to grief from getting too many over.

The Turk is not maintaining his reputation. In the Russo-Turkish war of forty years ago he gave a pretty good account of himself, and the general comment was that he was a fairly competent soldier. Either he has gone back or the Caucasian has advanced in warcraft. Probably the latter. European tactics and military skill have steadily improved, while the Turk has stood still in all things, if he has not retrograded.

REGULATING BOND SELLING.

Two wise restrictions in methods of selling Liberty bonds in the forthcoming campaign have been announced. One limits the part school children are to take, so that distribution of publicity material and keeping up the interest of their parents and other relatives will be their only forms of service. The other restriction confines the sale of bonds to two general channels, the orderly canvassing of homes and of places of employment. Thus haphazard and indiscriminate methods of bond selling will be eliminated.

In the enthusiasm of serving a great patriotic cause it is easy to go beyond the point set by the best interests of the cause and of the agencies enlisted. The tendency to use the public schools to excess in the promotion of worthy causes, but to the detriment of the primary purpose of the schools, affords an example of unwise enthusiasm. Mistakes of zeal may prove as harmful in their way as mistakes due to the lack of it.

In one of the great money-raising campaigns for war purposes last winter the work of one public school was so disrupted that for a week or ten days virtually no regular study or recitations were conducted. The interest of principal, teachers and children was centered on their patriotic employment. Rooms were dismissed for a day at a time while the children went collecting money from men and women passing along the street and canvassing from house to house. They invaded factories where essential war industries were carried on, interfering with the work while collecting coins. In these operations they competed with certain other schools, which also developed various degrees of demoralization.

The Liberty Loan committee has wisely voted to restrict the children's activities so that they can be used in a way that will be merely incidental to their regular school work. This will serve fully to show the patriotic fervor of the young Americans and will give them the knowledge that they have a useful part in the greatest cause in the world.—Chicago News.

NOTES and COMMENT

Next to properly attuning one's exultation over victory the commendable thing is to artistically camouflage disappointment over defeat. The world cements to a cheerful loser and is likely to give him another chance.

* * *

One of the largest shirt concerns has reassured mankind with the news that shirts are to go no higher in price. Calculations may thus be made as to that proverbial process of keeping them on.

* * *

Something is nearly always happening up around Marysville. At Yuba City, which is just across the bridge, a man had a fight with a porcupine. It is rare, indeed, that a match is pulled off between two such contestants. A possible hunch here for promoters who find that the usual stunts are palling upon the sporting public.

* * *

"Mexicans deport all aliens." The Mexicans are performing in a way that is gradually getting this country in a frame of mind that it will not take it in hand. And when that time arrives it is entirely likely that the situation will be cleaned up once for all.

* * *

"Berlin paper sees America's hand in party in Germany." This is turning the tables with a vengeance—American propaganda in Holland. But this country has a long way to go before it gets even in such matters.

* * *

Persons desiring to send presents to soldiers should inform themselves exactly as to the rules and regulations governing transmission and adhere religiously thereto. Any deviation from these may render futile the effort to lighten the holidays for somebody at the front.

* * *

Erzberger, member of the German Reichstag, has written a book in which he acclaims France of having had intent to invade Belgium. This needs the explanation that the Germans gave as their excuse for invading that country that France was going to do so, and they beat the French to it. Erzberger's exculpation would be important if anybody had ever believed such a criminal yarn.

* * *

Things have come to a bad pass when a diplomatic officer's escape with his life from such a country as Russia is a matter of national congratulation. Such things will receive attention when this other matter is out of our hands.

* * *

They didn't do it in that way once—stop operations at noon in the Chicago Board of Trade to pray. But they tried nearly everything else.

* * *

The Supreme Court cleaned it up rather definitely after getting at it. There is something, even to those who are not favored, in having a situation entirely free from ambiguity.

* * *

Energetic Jo Snyder takes on some of the characteristics of an orphan. He finds himself all alone at the head of the ticket, with nobody to look to for fatherly counsel.

* * *

Chancellor Hertling says the German "fears without cause." The mind that can take account of what Foch is doing and say it isn't "cause" has an ability to ignore that is given to but few.

SPIRIT OF THE STATE PRESS

The chucklingest minister of the Methodist conference was the Rev. S. E. Crowe of the Long church, who is also pastor for the boys at the Preston School of Industry. The boys of the industrial school let it be known unofficially that they didn't want "any other guy" sent to preach to them. Mr. Crowe says it is the best compliment he ever had. The boys got their wish.—Stockton Record.

A San Francisco visitor in the city declared yesterday that the "high fog" made him feel more at home than anything else he has experienced in San Diego. You simply cannot get a San Franciscan to call a rain a rain.—San Diego Union.

German seriousness sometimes gets the American funny bone. Thus the commander of the submarine that was operating off the coast of New England during the summer has returned home and in his report says the American people are wary because they have no good beer and there is a shortage of whisky.—Sacramento Union.

If a man makes a barrel of grape juice—which the law as planned does not forbid—if he allows the grape juice to stay in the barrel, will ferment and become wine. If the grape vines growing in the Santa Cruz mountains are not pulled up, that is what is likely to happen right here at home. Then there will be trouble.—Santa Cruz Sentinel.

September 25 was the date for a hearing of the charges made by Martin Kristensen against Charles M. Prince, Justice of the peace in Benicia, in which he petitioned to have the defendant impeached. Kristensen alleges that he was instructed by Prince to pay him \$10 and also \$10 to J. J. Kenny, then town marshal, as a fine for being drunk and disorderly; that he paid these sums and that he was not given a trial.—Solano County Courier.

THIS DAY IN THE WAR

Sept. 26, 1918: Immense pro-ally demonstration in Buenos Ayres.

Sept. 26, 1916: Combes occupied by allies.

Sept. 26, 1915: Allies take German trenches on twenty-mile front between Belgian coast and Verdun, and capture 20,000 prisoners.

Sept. 26, 1914: Germans drive back French near Noyon.

The old "peace offensive" decoy is somewhat battered, but still in the ring.

THE FORUM

The Editor of The Tribune disclaims responsibility for opinions and statements expressed in this column. Contributions on topics of general interest are welcome. They will not be printed unless accompanied by the name of the writer, which, if desired, will be withheld from publication.

SUGGESTED WATER SUPPLY.

To the Editor of The Tribune:

It is admitted by the East Bay Water Company that the new San Pablo addition, and counting on normal rainfall, must be increased from some source; in any event, within seven years. It is also admitted that a water famine next year will follow the third (present) season of drought, unless water be obtained from some new source.

The great man was visibly touched.

"I'll not deny," said he, "that your kind words have shaken my resolution. I trust that, if elected, I may justify your confidence and prove that I am indeed strong, brave, self-reliant, that I own no master and fear no man. Suppose you wait a minute till I see if my wife will let me accept!"—Seattle Times.

"It must be awful to be married to a poet." "It has its disadvantages, I'll admit, but in war times no one can accuse him of being a profligate."—Detroit Free Press.

OUR TERMS OF PEACE.

So Fritz, you want the war to cease? You ask us for our terms of peace? We're tried before to plainly state them;

Do you think now we can abate them?

We've noted how the Russian dupes laid down their arms, recalled their troops, And listened to your words of honey, And paid you billions of good money; Only to find your pledges vapor, Your treaties merely scraps of paper. Rumania bent a humble knee And ruled it sorely. Think you we Through camouflage can fall to see? No! We can wait, with naught to dread,

With heel upon the serpent's head. Our terms are such we can't debate them;

We only need to calmly state them. The only terms that we can tender Are unequivocal, uncompromising, unavoidable, non-misinterpretable, unqualified and unconditional surrender.

Gayley Scores Hun Conspiracies Tells of Plots Against Nations

Scoring the German conspiracies against civilization as the crowning iniquities in all history, Charles Mills Gayley, dean of the faculties of the University of California and one of the world's greatest authorities on English literature, was the speaker today before the Rotary Club at its weekly luncheon at the Hotel Oakland.

Professor Gayley dealt in detail with the Pan-German scheme of world domination, told of atrocities against persons and plots against neutrals, urging loyal Americans to rally to the support of the government in the world fight against Kaiserism.

TELLS OF GERMAN PLOTS.

Dealing with the details of the German plots that brought on the war, he said:

"As early as 1905 the Pan-German leaders began to publish pamphletsavoring German schemes of foreign aggression, and from that time on it developed itself as the systematic organization of Germany for the domination of the empire (especially in Austria and the United States) for the present war of world conquest. The scheme was outlined in a pamphlet, dated 1892, and entitled 'Great Germany and Central Europe' about the year 1910."

In referring today to the splendid cooperation of the citizens of Oakland in making welcome the enlisted men, Mrs. Lillian Brown Brorts said:

"Everybody has helped wonderfully, but to George P. Baxter, who gave us the building site, we feel we owe the general public who were interested in the war service.

RULES FOR TRAINING.

YOUTH WISHING TO JOIN THE STUDENTS' TRAINING CORPS MUST APPLY AT THE SCHOOL HE WISHES TO ENTER, AS FOR INSTANCE THE UNIVERSITY OF CALIFORNIA, AND IF THE SCHOOL DEEMS HIM MATERIAL THE SCHOOL AUTHORITIES WILL APPLY TO WASHINGTON FOR HIS INDUCTION. THIS WILL BE FORWARDED TO HIS DRAFT BOARD. OTHERWISE DRAFT BOARDS HAVE NO AUTHORITY TO INDUCT MEN FOR ARMY TRAINING CAMPS.

Men physically fit, between 18 and 45, who are placed in Class 1 by local boards, would be so placed except for industrial claimants, the school authorities cannot become candidates for commissions in the army until inducted into the army as privates. This new ruling of the adjutant general supercedes all other orders in the matter.

Registrants reserved for limited service may be commissioned from civilian life, and other deferred classifications, except those based on dependency, can also be commissioned direct. Dependents classifications bar commissions from civilian life.

INDUCTION FIRST.

Qualified registrants applying for commissions in army and corps and desired for service may present a certificate from the army branch concerned to be examined and inducted, then promoted. Local boards are authorized to classify men out of their turn in such emergencies. The same applies to men seeking voluntary induction into navy, marine corps and coast guard.

Announcement of the date of the draft lottery in Washington is still in doubt, according to wires today, pending arrangements at the capitol. In the meantime the boards are hurrying the work of sending out questionnaires and classifying men.

SUN PARLOR DONORS.

Donors to the new sun parlor, the artistic center of the club, the undertaking of Miss Florinne Brown, were:

Draperies, S. J. Bartelme & Co., Taff & Pennoyer, H. C. Capwell, F. G. Lewis, Cherry's and the Curtain Store.

The young women employees of the above stores contributed their time and services in making the curtains and side draperies. A club of young women from Taff & Pennoyer donated the smoking stands.

Interior painting and decoration of the tables and chairs was done by W. T. Baker, Robert Horden & Son furnished the tiles and tables.

Roses were given by the Mitchell Furniture Company and Anderson.

Fixtures were donated by Maxwell Hardware Company and electrical accessories by Kling, the labor furnished by Spangler.

W. T. Baker and Llewellyn, painters, gave their services together with Kahn Bros., Nickle, Japanese Art and the Klimona House, ferns.

Wicker furniture was donated by the Pacific Coast Rattan Company.

Plants came from W. R. Macdonald, Sanborn & Co., Fred Seulberger, Clark Bros., E. James, Ross & Co., Oakland Floral Shop and Morris Flower Shop.

REPORT READY FOR THE DRIVE IS HARLAN MILLER, in charge of district No. 124, which extends from Fourth to Ninth avenues and from Twenty-fifth to Thirty-sixth streets. Miller announced today that he had appointed his lieutenants and that they were ready to start the round of the gong. His lieutenants are W. H. Grimes, Thomas R. Bridge, Leon E. Gray, William Cryer, Fred Thomas, Harry E. Ewell, Edwin P. Numann, G. L. Belcher, James Murdoch, W. W. Madge, George C. Ellis, J. E. Smith, Ben F. Fillmore, H. C. Bellville, C. Lombard and W. L. Cohnick.

POTS DAM CONSPIRACY.

"Most damning proof of the duplicity of the German Kaiser and his ring of official assassins is the fact that the Potsdam conspiracy of July 1914, published to a horrified world. At that time the German government had assumed the rôle of arbiters in the Austro-Serbian difficulty. It had continually professed a desire to avert an

TANK FORTS
EVEN CANNOT
WIN FOR HUNS

WITH THE BRITISH ARMIES
IN FRANCE, Sept. 26.—Germany is reported to have prepared new mechanical obstruction to supplyment that would be morale and many powers. According to escaped publishers and German prisoners, at certain places in this zone, "tank forts" have been built. They are designed to meet the ever-increasing menace of the allied war chariots. They consist of well-embanked and well-placed gun positions.

Their armament consists of field guns, trench mortars, tank rifles and machine guns, designed to operate together.

But it will take something better than "tank forts" to save this line if German underfeeler, captured a few days ago, tells the truth.

The last news has opened the eyes of the common soldier to the break up of German military supremacy," he said.

"We are defeated and know it. I doubt, however, whether the German soldiers yet uncaptured realized through your efforts this defeat is. Coming through your ranks, such things could scarcely believe. Such transport, such horses, such men, such masses of artillery compared with our wretched iron-wheeled transport, skidding all over the place and blocking the roads. In wet weather, so scanty, badly-fed horses, boys driven by them, the (was he a member of the Second Guards?) emphasized the terrible contrast to the condition of the opposing armies.

"We still have a certain amount of artillery, but you must have five guns to our one. We are well off as regards shells, but you seem to have an endless supply."

Plans Outlined
For Observance
of Honor Day

TO THE MERCHANTS AND
BANKS OF OAKLAND:

It is the desire of the Liberty Loan Committee that Honor Day (Saturday), the opening day of the Fourth Liberty Loan be observed in the following manner:

All banks of the city to remain open all day and during the evening.

All stores to remain open as usual.

All employees to be given an opportunity to subscribe on Honor Day preferably through their firms.

All who receive Honor Day subscriptions are requested to get these into their banks on Honor Day.

Liberty Loan Committee.

J. H. KING,
Executive Chairman.

Horseflesh vs. Gasoline

Which do you bet on? Can a giant team of horses out-pull a giant tractor?

Can old "Dobbin" beat a "Tin Lizzie" to the mark? Come and see this test of strength and watch the throbbing, pulsating tractor endeavor to show up the weakness of a big, powerful, tugging team of powerful horses. Can it be done? See the test—

Tonight at Oakland's Land Show

And don't forget the fact that this show is to close next week. And you, your wife and children must by all means pay it a visit.

It is your patriotic duty to inspect the United States Government Exhibit alone, and then there are hundreds of displays besides—pretty, artistic showings of the products of the soil from other counties—private exhibitions of manufactured products, latest mechanical inventions and just a bunch of others—and oh, yes—don't forget the Zone for fun.

DEMPSEY VS. LEVINSKEY MAY FEATURE NEXT SHIPBUILDERS' SHOW

Jimmy Rohan Is Made Matchmaker for Club and Seeks to Land Big Bout

Dempsey Has Already Promised to Box Before Oakland Crowd

By Eddie Murphy

Official announcement of the appointment of Jimmy Rohan as matchmaker for the Shipbuilders' Athletic Association boxing show was made yesterday afternoon. The shows staged by the Shipbuilders' Athletic Association in the past were always good. East-bay fighters alone were featured, but it is now the intention of the Shipbuilders' Athletic Association to top the card with one big bout, the remainder to be made up of the boys that have been boxing here in the past.

The fans demand new faces once in a while. If the bout which the Shipbuilders now have in mind as headliner for the next show is secured, the Oakland auditorium is likely to be the seating place of the largest crowd that has witnessed a boxing show in Oakland since the old game died.

Battling Levinsky vs. Jack Dempsey in a four-round bout is what Jimmy Rohan is trying to arrange. He had a chat with Jack Dempsey the night of his scrap with Willie Mehan, and Jack promised that he would come to Oakland and box whenever Rohan wanted him to. Dempsey is anxious to show the fans of the bay cities just what he is able to do and Levinsky would be a good man for him to show against. Wires have been sent to Dempsey and a number of other headliners, and should Levinsky fail to accept the match with Dempsey, Rohan will turn his attention to some other heavyweight man. Battling Ortega, who recently defeated Mick King in twenty rounds, is also being counted upon as one of the attractions to the next show.

Splashes From Swimming World

By HERBERT HAUSER.

The proposed Red Cross swimming meet which was to be held at Piedmont baths on Saturday, October 12, has been called off by the members of the Piedmont Swimming club. The organization had figured upon an active public ticket selling campaign but when the members of the club who were looking after the Red Cross they refused to allow it. As the members knew it would not be a success unless they could sell tickets in this manner rather than make it a failure, called it off.

Entry blanks are out for the women's 220 yards, P. A. A. swimming championship which will be held at Neptune Beach on Sunday, October 6. Entries close October 3. The event was originally scheduled for the Riverside, but the members of the club who were looking after the Red Cross called it off for lack of interest in that section of the State and the event was turned over to the Neptune club by the club which organized it.

There still remains four more events on the swimming program to clean up the swimming championships all of which will be at Neptune Beach. On October 13 the men's 100 yards, 440-yard championship and the women's 200-yard breaststroke, while on October 14 the second year will close with the men's 200-yard butterfly, women's 200-yard butterfly and the women's 200-yard free style.

These events will close one of the greatest swimming seasons ever held in the Bay area.

The records committee of the P. A. A. has approved the following records for the past year:

PROFITEERING IN RENTS PUT UNDER PROBE

Rent profiteering was brought to light in half a dozen or more cases in the first complaints heard at the first meeting of the Oakland rent profiteering committee, headed by Senator Arthur H. Breed, at the Chamber of Commerce yesterday. Most of the cases reported were those of slight increases in rentals, which might be held on further investigation to have been due to increased general costs, such as taxes, repairs, insurance, water and other items.

The cases in which there had been what appeared to be a gross and extortionate increase in rentals are being further investigated by the committee, and at the same time the added cost of A. P. Pettit, Pacific coast manager for the United States housing corporation, is being sought as to the powers of the local committee to deal with such cases. The committee will hold a conference with Pettit before the next meeting to ascertain whether it will be possible to commandeer places in which the landlords refuse to reduce rentals to a reasonable amount and to use them for war workers, or whether it will be necessary to depend upon the publicity given cases of unpatriotic rent profiteering to coerce those guilty of the offense.

NAMES WITHHELD.

The names of those making the complaints and of the landlords against whom they charge profiteering will not be given out by the committee until after a thorough investigation of each case has been made and the committee has reached a decision as to whether rent profiteering has actually been attempted by the landlord. When a determination on the case has been reached, however, the name of the landlord will be published unless he agrees to reduce the rental to a reasonable amount.

Several property owners attended yesterday's meeting to obtain information as to whether they had the right to raise the rent paid by their tenants.

"I am a widow and the rental of two flats is my only means of support. I told one of the scores of women at the meeting, 'Owners of property have their rights. Everything we pay for has gone up and people are getting better wages. I want to know if I rented my flats when there were plenty of places vacant and rents were low, whether I could not right now to make a reasonable increase in the rates.'

"We expect to have all that information—whether any increases will be allowed, what factors will be considered, how the rates will be determined," explained Chairman Breed. "But the function of this committee is primarily to hear complaints of increases, especially when war and industrial workers are concerned."

KICKS AT WATER BILL.

A lively dispute occurred between a renter who had come to complain of the act of his landlord in ordering him in future to pay the water bill in addition to his rental and had presented bills for the last month's water as well as for the future, and a property owner who attended the meeting to get information.

"I'd like to ask this man a question," said the property owner. "How much did you make a year ago, and how much are you making now?"

The rent payer admitted that he was getting about \$200 more a year now than he had been in 1917.

"And then you go and kick at a

TWO BITS ADMISSION PRICE ADMITS TO EVERYTHING.

\$1.15 water bill being added to your rent," sarcastically remarked the property owner.

"I wouldn't kick if that was the only thing that went up," answered the renter. "But I am paying from 50 to 200 per cent more for everything that I eat, wear or use, and my wages haven't gone up in the meantime."

Cases of increases in rent ranging from \$2 or \$3 a month more, to cases in which rentals had been increased from \$25 a month to \$35 a month on short notice were reported. In these cases the properties will be inspected and the owners questioned before a decision is reached.

All is in readiness for the big inventory of all rooms available for war industry workers, which is to be

taken by 1500 women of the Mobilized Women's Army beginning Monday. It is believed that this will be one of the most thorough inventories to be made in any of the bay cities.

An inventory of dwellings and lodging accommodations in Hayward was undertaken by the Mobilized Women of Hayward at a meeting last night. Miss Ruth Kimball of Hayward is commander of the army, and will direct the work of taking the inventory.

BENEFIT WHIST TOURNAMENT.

Oakland Circle, No. 266, N. of W. will give a benefit whist party Monday night in Athens Hall, Pacific Building, Sixteenth and Jefferson streets.

Land Show Program Has Great Attractions

Tonight!
Horseless vs. Gasoline!

Which will win?
Tonight at 8:30. In the stadium at the Land Show, they're going to hold up a giant team of horses against a giant tractor in the most spectacular Tug-of-war ever invented.

The strongest machine in the world will pull against the biggest team of horses ever hitched together—all great draft horses from the Land Show officials come from the Bay district for.

Who will win in this spectacular contest of giants?

The contest takes place at 8:30 and will be free to all who attend the land show. It's a sight that perhaps will never be seen again. Wagers are being placed on which the contest by automobile men and racing runs high.

Today was "Postcard Day" at the Land Show, with a big pageant, "Write a Letter to the Bay Over There" as the feature.

Tomorrow's "Gift Day."

One hundred thousand free gifts will be distributed among those present at the Land Show, day and night, tomorrow. Everyone who enters the grounds is to receive a present. It is not a lottery or a gate prize scheme; instead, it is just general giving-away of presents. Each guest gets something of value; something worth more than the price of admission itself.

TONIGHT.

There will be free motion pictures tonight and tomorrow night, as well as every night of the week. In the Auditorium theater, where all the new war films are to be shown.

Free gifts.
Free "movies."
Free spectacles.

These are the things that make the Land Show the biggest show in the town for the money tomorrow.

The gift plan has been arranged in a unique manner. Every guest entering the gate will be given a ticket. Each ticket will be good for a gift. Whether the visitor finds his number in the gift tents, there his gift will be given him. There will be no blanks. Every visitor will receive a free present.

And watch for Sunday!

BIG DOUBLE DAY.

It's to be Shipbuilders' Day and Japanese Day.

The shipbuilders will present riveting contests, tug-of-war, building exhibitions, monster chorus of 800 voices, 10 massed bands, and a score of other big things in a great all-day free show in the Stadium.

Soared says that a man who acted like he was in a hurry to get somewhere was reported in the Telegraph to be shooting at the Toler place, and that deputy sheriffs are trying to trace him.

Meyers' house is at 9560 Foothill boulevard, and the garage is opposite, at number 9520.

Meyers notified the police of the Melrose division and an investigation was made by Lieutenant William Wood, but no further trace of the burglar was found.

Capitan of Inspectors Harry Green believes the two men were members of the gang that has been operating in the bay cities for some time past.

The police have a theory that the men stopped at the garage to obtain some tools with which to operate for robbers to their audience which is believed to have been stolen. The police are endeavoring to trace all cars that were stolen yesterday in an effort to run down the burglars.

Meyers was taken to the Emergency hospital where his wound, which is not considered serious, was dressed.

those under whose auspices she was heard were Mrs. George Hammer, Mrs. H. M. Lee, Miss Louise de Fremery, Mrs. Walton Moore, Miss Elsie Kroll, Miss Chrissie Taft, Miss Ethel Moore, Mrs. Raymond Wilson and Mrs. Frank Stringham.

DUELS WITH BOLD GANG OF AUTO BANDITS

Further activities of a gang of purse-lars and automobile bandits who have been operating extensively in Oakland for the last three weeks, occurred last night when three burglars were surprised while robbing a garage at Nineteenth Avenue and Webster. They exchanged shots with Leo Myers, the proprietor, wounding him in the left arm.

Meyers believes he hit one of the men.

It is believed also that the same gang robbed another garage further out on the boulevard.

Meyers lives across the street from the garage at 9560 Foothill boulevard. Shortly after 10 o'clock last night he closed the garage and went to bed. A little later he heard a crash of glass window across the street and looking out of his window he saw an auto standing in front of the garage while the rays of a flashlight were flashing about in the interior.

IS AT HOSPITAL.

Meyers is at the Receiving Hospital with a bullet wound in his left arm above the elbow. His condition is not serious and he will be taken home to-day.

In recounting his experience he said:

"I heard a noise at the garage and looked out of the window of my house. A man was standing guard at the garage and another man was in an automobile moving up and down the street. I saw a dark shape at the garage."

"Taking my gun I went outside and asked what was up. The fellow at the window pointed his gun at me. I drew a bead on him and just then his bullet hit me. My arm was spoiled, I suppose, by the hit, but I banged away. They went."

"Later a man with a bloody hand got on a street car near by. It might have been the man who was inside, or I think the machine went away without him."
